## OBJECTIVE

I am a recent Computer Engineering graduate. I have solid experience in full-stack web development through various projects and internships. During my three years of active involvement in the IT department of BEST, I enhanced my teamwork and responsibility skills. I am also focused on developing my skills in artificial intelligence, particularly in machine learning and large language models (LLMs).

## EDUCATION

### Suleyman Demirel University

*Bachelor's Degree in Computer Engineering*

Sept 2021 – Jul 2025

*Isparta, Turkey*

### Suleyman Demirel University School of Foreign Languages

*English Preparatory Program*

Sept 2020 – Jun 2021

*Isparta, Turkey*

## EXPERIENCE

### Turkcell GNCYTNK — *Web Application Solutions Intern*

Aug 2025 – Sept 2025 • *Istanbul*

- Took responsibility for the frontend of a task management (To-Do/Jira) project, optimizing the UI with React, React Router, Axios, Tailwind CSS, Vite.
- Developed Turkcell Life Portal (Demo), a full-stack events & training platform using Next.js 14 (TypeScript), Supabase, Tailwind CSS, FullCalendar, React Hook Form, Zod, React Toastify; presented it to 100+ participants in the Digital Channel Solutions department, explaining how I leveraged AI to complete it in a short time.

### Artificial Intelligence and Technology Academy — *Trainee*

Nov 2024 – Aug 2025 • *Remote*

- Received training in web app development (Python, FastAPI, DB management, Docker) and AI (Transformers – BERT, Image Captioning, multimodal RAG).
- Graduation Project: With a team of 4, developed MindSense, an AI-powered education platform; I was fully responsible for the frontend. Repo: [github.com/Yusuf-Tetik/YapayZekaAkademi](https://github.com/Yusuf-Tetik/YapayZekaAkademi)

### QNB Finansbank — *QNB 101 Intern*

Feb 2025 – Mar 2025 • *Remote*

- Focused on AI and data-driven business processes while improving analytical problem-solving skills; strengthened communication, time management, and adaptability through executive meetings and collaborations.

### Wediacorp Technology — *Full Stack Web Developer Intern*

Jul 2024 – Aug 2024 • *Istanbul*

- Built RESTful APIs with Node.js for backend functionality and optimized UX with React Hooks and React Router; gained practical experience in modern web technologies and data flow management.

## TECHNICAL SKILLS

- **Languages:** C#, JavaScript, TypeScript, Python, HTML, CSS
- **Frameworks & Tools:** .NET, React, Next.js, Node.js, Express.js, Git, GitHub, VS Code, Vercel
- **Databases:** MySQL, MongoDB, Supabase (PostgreSQL)
- **Data Science & AI:** NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, PyTorch
- **Languages:** Turkish (Native), English (Upper-Intermediate)

## PROJECTS

### Yakinda Neler Var ? (Events & Training Platform)
